Egibility for the Senior Citizens exemption is based on certain income limitations. As per current *locally adopted options*, the above charts for Town, County and School Districts, depicts the percentage of assessed value to be deducted for your exemption savings, as determined by the total income for the property owner(s).

Deductions for unreimbursed medical and prescription drug expenses and for veteran's disability compensation are NOT AUTHORIZED, as these options have not been adopted locally.

\*Local public school district has adopted a resolution to permit a school tax exemption, allowing for school-aged children who reside at the property.
