DEMOLITION OF INGROUND POOLS WHAT YOU NEED TO KNOW

- All utilities shall be disconnected and capped at the principal dwelling.
- Pool, if concrete/gunite, shall be broken down into small chunks.
- 3" diameter holes shall be made at the deepest 4'x4' area of the pool.
- Pool must be broken down at least 12" below grade.
- Fill, clean of deleterious materials (metals, plastics, etc.), shall be used. Small chunks of concrete from demolition can be used as fill.
- Fill shall be granular (Class 2), installed in 12" uniform lifts. Compact each layer of fill.
- Minimum 6" of topsoil shall be placed over the entire fill area.
- For Certificate of Compliance, area of disturbance shall be graded and seeded to match existing yard.
